Miami, Florida 33133

**RE: Results of Soil Testing**  
**Vicinity of SW 328<sup>th</sup> Street & Turnpike**  
**Homestead, FL**  
**Project No: HA22-6140**

Dear Mr. Bravo,

By means of this correspondence, Hydrologic Associates USA, Inc. (HAI) transmits the results of Laboratory analysis collected on the soil samples obtained from the above-referenced property.

**Methods and Procedures** – HAI obtained samples samples from the property on March 7, 2022. The samples were analyzed for 4 RCRA & PAH. Four samples were collected from the 0-6” interval. The soil samples were analyzed by a State of Florida certified analytical laboratory.

**Results** – **As the attached Laboratory Report shows, the samples collected have indicated elevated levels of arsenic at the subject property which warrant additional assessment activities.**

HAI trusts that this information is helpful for your purposes. Should you have any question or wish to discuss this matter in further detail, please call our Miami office.

Sincerely,

James T. Miller, P.E.  
Principal Engineer
